**ALABAMA'S LARGEST EXPO ON SUSTAINABILITY,
ENERGY EFFICIENCY COMING TO MONTGOMERY FEBRUARY 25-27**

Montgomery—Montgomery will play host to the 2013 Alabama's Better Living Expo (ABLE), the state's premier expo on sustainability and energy efficiency. The expo will take place February 25-27, 2013 at the Montgomery Renaissance Hotel and Convention Center.

ABLE debuted last year in response to the growing need from consumers and business professionals seeking to incorporate more environmentally-friendly products and money-saving technologies into their homes and businesses. Open to all commercial and residential building industry professionals, ABLE features over 100 hours of continuing education and more than 60,000 square feet of exhibit space to expose attendees to the latest innovations in sustainability and energy efficiency.

ABLE is presented by a host of industry partners, including the Alabama Licensing Board for General Contractors, Alabama Associated General Contractors, Alabama Council of Engineering Companies, Alabama Department of Environmental Management, Alabama Board of Heating, Air Conditioning & Refrigeration Contractors, Home Builders Association of Alabama, Alabama Association of Habitat for Humanity Affiliates, Alabama Council of the American Institute of Architects, Alabama Home Builders Licensure Board, Alabama Chapter of Associated Builders and Contractors, Alabama Electrical Contractors Board, Alabama Clean Water Partnership, Alabama Chapter of the U.S. Green Building Council, and PowerSouth.

Major sponsors for the 2013 ABLE include Alagasco, Alabama Power, and the Alabama Department of Economic and Community Affairs. Verizon Wireless is the official Wireless Communications Sponsor.
